The Philosophy behind “KALASARJANA”

Art, Creativity, and Culture are some of the important pillars of human development and progress. Looking at history, great civilizations like ours, which are guiding mankind towards a better world, are the ones in which art and culture were given utmost patronage by the royals and nobility. They have stood the test of time for a thousand years and beyond due to their close engagement with Art, Architecture, Culture, and Literature.

In the fast-paced world that we live in, there is a frenzied surge in fast food, fast fashion, and fast growth which is leading to increased stress in life. There is a need to pause and take time out for the finer aspects of life and engage in creative pursuits. Navi Mumbai has evolved as one of the top cities in India and is known for its infrastructure and cleanliness. It is making huge investments in landscaping, city beautification, and getting art installations commissioned at several places. Presently, contemporary art lovers in Navi Mumbai, which is a growing tribe, have to travel to Mumbai to experience Art Galleries such as Jehangir Art Gallery, Chemold, Volte, Project 88, etc.

KALASARJANA is an initiative and endeavors to promote contemporary art and artists in Navi Mumbai and give art lovers as well as people not exposed to the same, an opportunity for appreciating the artworks of some of the finest artists in the country.
